

Description:

The Elite BCE60LV2 evaporative cooler offers a cost-effective alternative to traditional air conditioning and create a comfortable working environment for your employees or customers. Evaporative coolers cool the air using a simple natural process: the evaporating water decreases the temperature of the air. A pump takes the water from a tank and dampens a large pad made of natural cellulose. A powerful ventilator aspires air through the filter. The water evaporates from the filter and decreases the temperature of the air by several degrees. The fresh and clean air flows into the room and cools it down.

Product Code: BCE60LV2

Specification:

- Power Supply: 220 - 240v 50Hz
- Air Flow: 4700 m³/h
- Maximum Area: 60 m²
- Power Consumption: 168w
- Water Tank Capacity: 70l
- Sound Level: 45dB(A)
- Dimensions: 68 x 42 x 125 cm (WxDxH)
- Weight: 18.5kg
